

MILO RANGE

MASTER INSTRUCTOR CERTIFICATION

The Master Instructor Certification Course expands on the basic MILO Range system product training course that is included with each system purchase. The basic product training course is 1-3 days depending on what system and options were purchased. Areas of focus in the Master Instructor Course will include:

MILO SYSTEM OPERATION TRAINING

Master Instructor students will learn all system operations on the MILO Range Simulator. At conclusion, students will have the ability to set-up, navigate, operate and troubleshoot all system components. This includes the basic MILO product training course. Class length depends on system type purchased (1-3 days).

Instructors will learn how to teach students on best practices concerning the fundamentals of marksmanship training on simulation training systems. Instructors will also learn the psychological aspect of what trainees experience during stress-based use of force training in a simulated environment.

MILO PROGRAM DEVELOPMENT TRAINING

Instructors will learn how to design and implement a structured learning program and training environment that will allow students to excel in the training environment. Instructors will learn to develop an awareness of what the student is experiencing psychologically and structure lessons to increase student performance using those factors.

INSTRUCTOR LEVEL FIREARMS TRAINING

INSTRUCTOR EVALUATION AND CERTIFICATION

Instructors will be evaluated on a tiered scale to help reinforce knowledge and experience. Master Instructor students will instruct on three separate classes with increasing difficulty concerning curriculum and preparation. Instructors will also be evaluated on conduct of the class and after action review of the class.

MILO RANGE

ABOUT US

MILO Range is a world-leading provider of interactive simulation training products and is widely regarded as the nation's fastest growing manufacturer of best-in-class crisis management and tactical judgment training systems. Since 1994, our award-winning MILO Range product line has been continuously selected as the de-facto training simulator for all branches of law enforcement, military, security and public safety agencies throughout the United States and the world.

MILO has recently partnered with American Mobile Training Solutions LLC (AMTS) to provide a unique turn key service. AMTS is a fully integrated national training company that provides essential threat detection training for school, business, church, military and law enforcement personnel. The training provided enables personnel to recognize and react to threats within their facility before a conflict can further escalate. AMTS works with administrators to improve and adjust standard operating procedures (SOP) to meet the growing threats that are rising within our nation, while also responding to evolving and emergent tactics, techniques, and procedures that individuals are using. AMTS is a veteran owned small business that is dedicated to providing the upmost professional instruction available today.
