INCIDENT COMMAND MANAGEMENT SIMULATION

INCIDENT COMMAND MANAGEMENT SIMULATION

REAL EMERGENCIES. REAL EXPERIENCE. REAL LEARNING.

Competency is built from real hands-on experience — an Incident Command Management simulation (ICM) system builds those core skills without stepping into the real incident before you are ready. RS is a true 3D-immersive simulation that enables you to train your team, certify your commanders, and practice mutual-aid with the utmost confidence.

REAL TRAINING

- Train whenever, wherever without the need for extensive logistics and material
- Improve the operational preparedness of the emergency response organization
- Avoid high practical training costs
- Multi-departmental training with different emergency services is possible
- Learn new skills in a safe environment
- Realistic 3D training environments, company-specific or generic
- Complete control and flexibility for the instructor before & during scenarios
- Logging of all actions and decisions for debriefing

SCALABLE TRAINING SOLUTIONS

RS allows for full cooperation, communication, and coordination of any incident during training.
